## REVIEW OF OPERATIONS

### TRADING PERFORMANCE

Kogan.com delivered its highest Gross Sales result in the half-year ended 31 December 2021 with Gross Sales up \$59.8 million (9.4%<sup>1</sup>) on the prior corresponding period, and a CAGR of 46.9% on the half-year ended 31 December 2019.

The Group achieved an Adjusted EBITDA<sup>2</sup> of \$17.4 million in 1HFY22.

1. Gross Sales percentage growth is based on the absolute value, not rounded figures as disclosed in this report.
2. Kogan believes that non-IFRS measures referred to in this document provide useful information to recipients for measuring the underlying operating performance of the business. Non-IFRS measures are not subject to audit.

## DIRECTORS' REPORT CONTINUED

Kogan.com recorded a statutory loss after tax of \$11.9 million (1HFY21: profit of \$23.6 million). Loss after tax in the current period includes Equity-Based Compensation of \$13.6 million (1HFY21: \$2.6 million) and provisions for Mighty Ape Tranche 3 and 4 payments of \$10.4 million (1HF21: \$1.8 million). As part of the Sale Agreement, Tranche 3 and 4 are contingent on the Mighty Ape Founder & CEO remaining with the business until the delivery of the financial year 2023 results. In line with accounting standards, Tranches 3 and 4 payments will be considered as compensation for post-combination services for accounting purposes, and as such, treated as employee remuneration. The Group will proportionately account for these expenses until the respective payment dates.

The key drivers of performance in the half-year to 31 December 2021 were:

- **Brand growth:** in the twelve months to December 2021, the Company's Group Active Customers grew to over 4,000,000, with more than 10% growth YoY in Kogan.com Active Customers to 3,314,000, and Mighty Ape had 757,000 Active Customers as at 31 December 2021.
- **Inventories:** total inventories reduced from \$225.3 million as at 31 December 2020 to \$196.8 million as at 31 December 2021.
- **Kogan Marketplace:** 1HFY22 saw the continued expansion of Kogan Marketplace, achieving \$221.1 million in Gross Sales in a half for the first time ever. Resulting seller fees were \$18.2 million during the half, growth of 37.5% on the prior corresponding period.
- **New Verticals & advertising revenue:** The business continues to scale the Kogan First loyalty program, with total subscriptions growing to 274,000, a 176% YoY increase. Additionally, Kogan Energy, Kogan Mobile New Zealand and Kogan Money all showed strong growth in the half.

Kogan.com continued to expand its advertising income stream, signing new agreements with OpyPro, Paypal and Humm New Zealand.

- **Other Income:** Kogan.com executed an agreement with Bitbuy, one of Canada's largest crypto trading platforms, whereby the parent company of Bitbuy, First Ledger, acquires the domain name bitbuy.com from Kogan.com.

At 31 December 2021 the business had received the USD\$1.5 million cash payment and recorded a receivable of A\$3.0 million in relation to the warrant<sup>1</sup>.

- **Mighty Ape:** Mighty Ape contributed \$93.8 million of revenue and \$21.6 million of Gross profit in the half.
- **Operating costs:** The Group's operating costs continued to be impacted by the challenging COVID environment, particularly across logistics. Additionally, one-off operating costs included;
  - a \$13.6 million of equity-based compensation expenses driven by the recent awards of options
  - a \$10.4 million accrual for Tranches 3 & 4 of the Mighty Ape purchase<sup>2</sup>
- **The effective tax rate** in the 2022 half-year was 3% (2021 half-year: 33%). The effective tax rate is impacted by the difference in accounting versus tax treatment of the Mighty Ape Tranche 3 and 4 provisioning. For Australian income tax purposes, amounts provisioned for the acquisition of Mighty Ape shares are considered as capital in nature and are therefore non-deductible, rather increasing the tax cost base of the shares. No deferred tax asset is recognised due to Kogan.com being able to control the timing of the reversal of the temporary difference and it being probable that the temporary difference will not reverse in the foreseeable future.

1. The warrant contracted at a value of CAD\$2.8 million has been converted to AUD using the FX rate on 13 December 2021 and discounted to present value.

2. As part of the Sale Agreement, tranche 3 and 4 are only payable provided Simon Barton, Mighty Ape CEO, is not a 'Bad Leaver' until 31 March 2023. Per IFRS 3.B55(a), tranches 3 and 4 payments will be considered as compensation for post-combination services, and as such, treated as employee remuneration. The Group will proportionately account for these expenses up until the respective payment dates.

## OUTLOOK

Kogan.com is a dynamic portfolio of businesses — there is always more that we can do and new ways we can delight our customers.

January 2022 unaudited management accounts show Gross Sales growth of 11.9% above January 2021 and a CAGR of 27.4% since January 2020.

In 2HFY22 we expect growth in Kogan First subscribers heading toward the FY26 goal of 1 million subscriptions, continued growth in Kogan Marketplace, continued strong contribution from Exclusive Brands, further integration of the Mighty Ape Team and operations, continued growth of Mighty Ape and improved operating leverage, consistent with the Company's long-term track record.

## BASIS OF PREPARATION

The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards and the nature of its operations and principal activities are described in the Directors' Report on page 1.

These interim General Purpose Financial Statements have been prepared in accordance with the *Corporations Act 2001*, and with AASB 134 *Interim Financial Reporting*.

They do not include all of the information required for a complete set of annual financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements of Kogan.com Ltd and its subsidiaries as at and for the year ended 30 June 2021.

The accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 30 June 2021.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Kogan.com is a company of the kind referred to in ASIC Corporations (*Rounding in Financial/Directors' Reports*) Instrument 2016/191 and in accordance with that instrument, amounts in the Director's Report and the Financial Report are rounded to the nearest thousand dollars except where otherwise indicated.

## a. Segment Information

### (i) Basis for segmentation

The Group has the following two operating divisions, Kogan.com and Mighty Ape. These operating divisions offer different products and services and are managed separately because they require different product sourcing and marketing strategies.

The Board considers the business primarily from an operating divisions perspective, and receives monthly reports that allow them to make strategic decisions about resource allocation to each. On this basis management has identified the operating divisions as the Group's two reporting segments. The Board monitors the performance of these two segments separately. The Group does not operate under any other operating division.

Reportable segments	Operations
Kogan.com	Online retailer selling in-house and third-party brand household and consumer electronics products, as well as providing services for telecommunication, internet, insurance, home finances, utilities, vehicles and travel.
Mighty Ape	Online specialist retailer of gaming and entertainment products.

#### b. Uses of Judgement and Estimates

In preparing these interim financial statements management have made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Estimates and judgments that have the most significant effect on the amounts recognised in the interim financial statements are:

- The provisions for warranties and sales returns are based on estimates from historical warranty and sales returns data associated with similar products and services. The Group expects to incur most of the liability over this next year.
- The assessment of the carrying value of non-current assets, including intangible assets, is based on management's assessment of the nature of the capitalised costs and their expected continued contribution of economic benefit to the Group, having regard to actual and forecast performance and profitability.
- The provision for slow moving and obsolete inventory is based on estimates of net realisable value.
- The assessment for impairment of Goodwill associated with the Mighty Ape acquisition in December 2021.

Key estimates and judgements have not changed from those disclosed in the Group financial report for the year ended 30 June 2021.

### 1.3 Tax Balances

Tax expense is recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim reporting period.

The Group's consolidated effective tax rate for the six months ended 31 December 2021 was 3% (for the six months ended 31 December 2020: 33%). The effective tax rate is impacted by difference in accounting versus tax treatment of the Mighty Ape Tranche 3 and 4 payments. For Australian income tax purposes, amounts paid for the acquisition of Mighty Ape shares are considered as capital in nature and are therefore non-deductible, rather increasing the tax cost base of the shares. No deferred tax asset is recognised due to Kogan.com being able to control the timing of the reversal of the temporary difference and it being probable that the temporary difference will not reverse in the foreseeable future.

Effective tax is impacted by the differences between when an amount of revenue or expense is recognised for accounting purposes and when income and deductions are recognised under the tax laws.

## Fair Value Measurements

The Group measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- cash and cash equivalents; and
- foreign exchange forward contracts.

### a. Fair Value Hierarchy

AASB 9 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.	Measurements based on unobservable inputs for the asset or liability.

Cash and cash equivalents are Level 1 measurements, whilst foreign exchange contracts are Level 2. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

The fair value of foreign exchange contracts at 31 December 2021 totalled a liability of \$85,733 (30 Jun 2021: \$204,798 asset). This represented the fair value of forward contracts as at 31 December 2021, being the difference between the spot rate and strike rate.

### b. Disclosed Fair Value Measurements

The carrying value of financial assets and financial liabilities are not materially different to their fair values.

The Group enters into forward exchange contracts to manage the foreign exchange risk attached to inventory purchased in foreign currency. The Group has elected not to adopt hedge accounting, with any period movements in the fair value of the derivative contract taken to the income statement.

## 3.3.1 Issued Capital and Reserves

### a. Ordinary Shares

	31 December 2021 \$'000	30 June 2021 \$'000	31 December 2021 No. <sup>1</sup>	30 June 2021 No. <sup>1</sup>
Fully paid ordinary shares	300,703	299,186	106,888,209	106,561,563

Ordinary Shares participate in dividends and the proceeds on winding-up of the parent entity in proportion to the number of shares held. At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

1. These values are absolute and not rounded.

### c. Merger reserve

The acquisition of Kogan Operations Holdings Pty Ltd by Kogan.com Ltd has been treated as a common control transaction at book value for accounting purposes, and no fair value adjustments have been made. Consequently, the difference between the fair value of issued capital and the book value of net assets acquired is recorded within a merger reserve of \$131,816,250.

### d. Performance Rights reserve

The reserve is used to recognise the value of equity benefits provided to employees as part of their remuneration. The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the Ordinary Shares at the date at which they are granted. The fair value is determined using a discounted cash flow valuation model, taking into account the terms and conditions upon which the equity instruments were granted, as discussed in Note 5.1.

There have been no material changes to the Group's related party arrangements during the period, which are detailed in the Group's financial report for the year ended 30 June 2021.

## SECTION 5: TEAM MEMBER REWARD AND RECOGNITION

### 5.1 Incentive Plans

Kogan.com Ltd has adopted an Equity Incentive Plan (EIP) to assist in the motivation and retention of management and selected team members.

The Group has established incentive arrangements subsequent to listing on the ASX to assist in the attraction, motivation and retention of the executive team and other selected team members. To align the interests of its team members and the goals of the Group, the Directors have decided the remuneration packages of the executive team and other selected team members will consist of the following components:

- fixed remuneration (inclusive of superannuation);
- short-term cash-based incentives; and
- equity-based long-term incentives.

The Group has established the EIP, which is designed to align the interests of eligible team members more closely with the interests of Shareholders in the ASX listed entity post 7 July 2016. Under the EIP, eligible team members may be offered Restricted Shares, Options or Rights which may be subject to vesting conditions. The Group may offer additional long-term incentive schemes to senior management and other team members over time.

#### Short-term incentives - Cash-based

The following table outlines the significant aspects of the short-term incentive (STI):

<b>Purpose of the STI plan</b>	<p>Provide a link between remuneration and both short-term Company and individual performance.</p> <p>Create sustainable shareholder value.</p> <p>Reward individuals for their contribution to the success of the Group.</p> <p>Actively encourage team members to take more ownership over the EBITDA<sup>1</sup>.</p>
<b>Eligibility</b>	<p>Offers of cash incentives may be made to any team members of the Group (including a Director employed in an executive capacity) or any other person who is declared by the Board to be eligible to receive a grant of cash incentive under the STI.</p>
<b>Calculation &amp; Target</b>	<p>The actual EBITDA<sup>1</sup> of Kogan.com shall exceed the management forecast for the full financial year (after payment of the STI).</p> <p>25% of the outperformance will be allocated to a 'bonus pool'.</p> <p>The 'bonus pool' will then be shared in cash bonuses among a number of team members in fixed proportions.</p>
<b>Maximum opportunity</b>	<p>The maximum payable is 25% of the outperformance and 35% of the team member's annual salary.</p>
<b>Performance conditions</b>	<p>Outperformance of the actual EBITDA<sup>1</sup>.</p> <p>Continuation of employment.</p>

<b>Why were the performance conditions chosen</b>	To achieve successful and sustainable financial business outcomes as well as any annual objections that drive short-term and long-term business success and sustainability.
<b>Performance period</b>	1 July 2021 to 30 June 2022.
<b>Timing of assessment</b>	August 2022, following the completion of the 30 June 2022 account.

<b>Amounts payable &amp; Entitlement</b>	No amount is payable upon the exercise of a Performance Right that has vested, with each Performance Right entitling the holder to one fully paid Ordinary Share on exercise.
<b>Service condition on vesting</b>	Individual must be employed by the Group at time of vesting and not be in their notice period.
<b>Restriction on dealing</b>	Shares allocated upon exercise of Performance Rights will rank equally with all existing Ordinary shares from the date of issue (subject only the requirements of Kogan.com's Securities Trading Policy). ##### Executive Retention Options awarded at the 2020 AGM issued under the Group's EIP

The following table outlines the significant aspects of the Executive (EIP):

<b>The number and class of securities issued to the Directors</b>	3,600,000 options granted to Mr Kogan and 2,400,000 granted to Mr Shafer under the EIP.
<b>Details of the Retention Options</b>	<p>The Board (excluding Mr Kogan and Mr Shafer) decided to grant the Retention Options to Mr Kogan and Mr Shafer because the Board believed it was in the best interests of the Company and Shareholders to incentivise Mr Kogan and Mr Shafer to remain in their positions for the next 3 years given their proven track records, in order to maximise the prospects of Mr Kogan and Mr Shafer contributing to the creation of significant future returns for Shareholders.</p> <p>The Retention Options are being accounted for in the same way the Company's current equity-settled awards are treated (refer above), with their accounting value determined at their date of grant (within 10 Business Days of the Meeting). Equity-settled awards are measured at fair value at the date of grant.</p> <p>The cost of these transactions is recognised in the Company's Consolidated Statement of Comprehensive Income and credited to equity on a straight-line basis over the vesting period after allowing for an estimate of shares that will eventually vest. The level of vesting is reviewed annually and the charge adjusted to reflect actual and estimated levels of vesting. Accordingly, any deductions allowable for tax purposes will also be in line with current equity-settled awards.</p> <p>The Company obtained an independent valuation of the Retention Options from SLM Corporate dated 7 May 2020 to provide advice in relation to whether the proposed grant of the Retention Options was reasonable in the circumstances and by reference to industry standards. The valuation applied a number of assumptions and variables, including the following:</p> <ul style="list-style-type: none"> <li>• the closing price of the Company's Shares on ASX on 30 April 2020 (a reference date under the report), being \$7.99 per Share;</li> <li>• a risk-free rate of 0.33%;</li> <li>• a volatility factor of 62.5%;</li> <li>• dividend yield of 1.96%; and</li> <li>• a time to maturity of the underlying Options for 4 years.</li> </ul> <p>The estimated value of each Retention Option pursuant to the valuation was \$4.13 as at the reference date of the report of 7 May 2020. On this basis, the estimated value as at the reference date of the report of 7 May 2020 of:</p> <ul style="list-style-type: none"> <li>• the Retention Options to be granted to Mr Kogan under Item 5.1 was \$14,872,133; and</li> <li>• the Retention Options to be granted to Mr Shafer under Item 5.2 was \$9,914,756.</li> </ul>

**Details of the Retention Options** *(continued)*

The report from SLM Corporate dated 7 May 2020 reflects the value of the Retention Options on or about the date that the Company agreed to grant the Retention Options to Mr Kogan and Mr Shafer. For completeness, given the time that has elapsed between the AGM (at which the Retention Options were approved by Shareholders) and both the date of the independent valuation of the Retention Options from SLM Corporate and the date that the Company agreed to grant the Retention Options, the Company obtained an updated independent valuation of the Retention Options from SLM Corporate dated 8 December 2020. This valuation applied the same assumptions and variables as noted above, except that:

- the closing price of the Company's Shares on ASX on 30 November 2020 (date of issue of the Retention Options as per the updated independent valuation), being \$16.40 per Share;
- a risk-free rate of 0.25%;
- a volatility factor of 62.5%; and
- dividend yield of 1.28%.

The value of each Retention Option pursuant to the valuation was \$11.48 as at the issue date of the updated independent valuation of 8 December 2020. On this basis, the value as at the issue date of the updated independent valuation of 8 December 2020 of:

- the Retention Options granted to Mr Kogan was \$41,325,935; and
- the Retention Options granted to Mr Shafer was \$27,550,623.

The increase in the value of the Retention options reflected the increase in the Company's share price since the Company announced the terms of the Retention Options to the ASX on 12 May 2020 and the grant of the Retention Options following the Company's AGM on 20 November 2020.
