3. NPATA: this non-IFRS measure was not disclosed in the Prospectus however, management believes NPATA is a meaningful metric in understanding the performance of the business.

OVERVIEW

Revenue exceeded FY17 Prospectus forecast by \$48.3 million, driven by growth in Active Customers, Kogan Mobile and channel growth with the launch of Dick Smith.

Gross profit was 40.9% above Prospectus forecast at \$51.7 million. Improved gross margin was driven by precision sourcing, improved efficiencies/automation in processes and Kogan Mobile.

Following better than expected ROI on marketing, spend was increased above Prospectus forecast as a % of revenue.

NPATA refers to NPAT plus the non-cash amortisation of the Dick Smith assets.²

Notes:

1. The basis of the Pro Forma results is consistent with the Prospectus. A reconciliation from statutory to Pro Forma is provided in Annexure 3.

OVERVIEW

GTV growth of 47.4% versus Revenue growth of 37.1% is driven by Kogan Mobile transaction values, which are not recorded as Revenue. Kogan Mobile revenue reflects the commissions, rather than the gross transaction value.

Gross margin increased by 2.4pp to 17.9%.

Marketing costs in FY16 were low due to cash constraints, which were released on receipt of IPO proceeds in July 2017.

The business also invested heavily in people in FY17. Short-term and long-term incentives are in place to retain key talent in the business and align the interests of key staff with shareholders. As a result of significant outperformance, bonuses paid in FY17, including superannuation and LTIs, were \$0.9 million.

The year-on-year increase of \$9.2 million in Pro Forma EBITDA was driven by the increase in revenue and gross margin.

KEY DRIVERS OF KOGAN.COM FY17 FINANCIAL PERFORMANCE

The business is utilising IPO proceeds to deliver on growth strategies, with the benefits beginning to be realised in FY17.

RELEASE OF CASH CONSTRAINTS

▶ Following the IPO, cash constraints were released and the business was able to implement strategies for investment in: Private Label and Third Party Domestic inventory; and Marketing in order to drive growth in FY17 and beyond. During FY17, the investment in Private Label inventory was focused on replenishing existing best sellers and ranges where stock was below optimal levels. With that complete, from late 4Q17, the business expanded focus to new ranges which will drive growth in FY18 and beyond.

Better than expected ROI on marketing led us to increase marketing spend as a % of revenue versus the Prospectus forecast. Effective, targeted marketing is a key component of delivering growth and reaching more consumers.

BRAND GROWTH

▶ The business achieved solid growth in Active Customers in FY17 of 253,000 (36.0%). At the end of FY17, we had 955,000 Active Customers.

CHANNEL GROWTH

▶ The Dick Smith channel launched in May 2016, and was a strong contributor in FY17. The Kogan.com group sales funnel drives new customers to both Core Website Channels.

KOGAN MOBILE

▶ Kogan Mobile achieved significant growth, outperforming the Prospectus Gross Sales forecast for FY17 by 140.0% and growing by 620.0% compared to FY16.

Through our strong commercial partnership with Vodafone, Kogan Mobile has been able to bring a compelling offering to the market. Due to a strong marketing funnel, Kogan.com has been able to steadily grow the subscriber base. Due to the commission-based business model, Kogan Mobile incurs minimal operating costs, with marketing being the key cost. Consistent with all our marketing, this cost is targeted and variable with ROI metrics.

KEY DRIVERS OF KOGAN.COM FY17 FINANCIAL PERFORMANCE

Focus on efficiencies, automation initiatives, Private Label and Kogan Mobile resulting in improved gross margins.

GROSS MARGIN IMPROVEMENT

Improvements in efficiency, automation initiatives, continual improvements to our ERP, expansion in the product offering and Kogan Mobile are positively impacting the gross margin of the business. Kogan Mobile Revenue is 100% gross margin, and represented 7.0% of total gross profit in FY17.

PROPRIETARY ECOMMERCE PLATFORM AND ERP

Kogan.com's multi-channel proprietary world class platform allows personalisation in marketing and scalability of the consumer offering. Combined with the years of work undertaken by the team to optimise the business's proprietary ERP implementation, it is continuing to deliver efficiencies in time and cost. The business is continuing to achieve further automation across various functions, and is continually improving reporting and business insights that drive rapid decision making across the business.

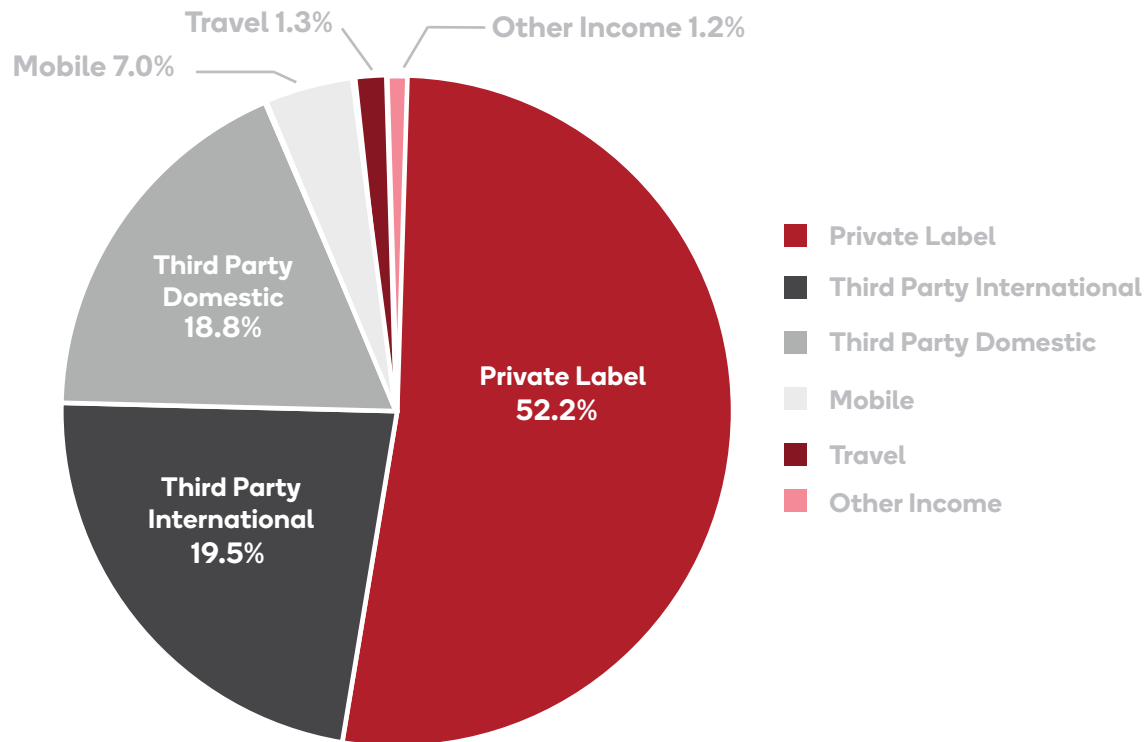

INVESTMENT IN PEOPLE

The business invested heavily in people in FY17. Short-term and long-term incentives are in place to retain key talent in the business and align the interests of key staff with shareholders. As a result of significant outperformance, bonuses paid in FY17, including superannuation and LTIs, were \$0.9 million. Excluding these bonuses, People Costs were higher than expected largely due to an increased focus on retention of key staff. The people costs presently within the business are sufficient to support ongoing strong growth in revenue across our portfolio of businesses.

FY17 GROSS PROFIT PRODUCT & BUSINESS MIX

Private Label exclusive brands represent over 50% of Gross Profit. Kogan Mobile increased from 4.2% of gross profit in 1H17 to 7.0% for the full year.

GROSS PROFIT MIX IN FY17

OVERVIEW

Private Label accounted for 52.2% of Gross Profit in FY17. The deployment of IPO proceeds into Private Label inventory in FY17 was focused on replenishing ranges, whereas we are now focused on new products and new ranges. As such, management expects Private Label to show further growth in FY18 and beyond.

NEW VERTICALS

Kogan Travel and Kogan Mobile exceeded Prospectus Forecast Gross Sales by 27.8% and 140.0%, respectively.

\$m	Actual FY16	Prospectus forecast FY17	Actual FY17	Variance to forecast	Variance YoY
Gross sales ¹					
Kogan Travel	4.8	5.4	6.9	27.8%	43.8%
Kogan Mobile	0.5	1.5	3.6	140.0%	620.0%
Total	5.3	6.9	10.5	52.2%	98.1%

NEW VERTICALS IN FY18

Notes:
 1. Gross Sales is a non-IFRS measure - refer to the definition in the Glossary at the end of this Presentation. In respect of commission based sales generated under Kogan Mobile and part of Kogan Travel, Gross Sales represents only the commission received by the Company, and not the GTV paid by consumers

KOGAN MOBILE

FY17 commission of \$3.6 million (FY16: \$0.5 million) and strong growth in Active Customers.

KOGAN MOBILE ACTIVE CUSTOMERS

KOGAN MOBILE QUARTERLY COMMISSION (\$000S)

Strong commercial relationship with Vodafone translating into growth for Kogan Mobile. The unique model means that Vodafone is responsible for operations, while Kogan is responsible for branding, marketing and customer acquisition. Kogan Mobile Gross Sales are 100% gross margin. The success of Kogan Mobile demonstrates the strength of the Kogan brand in powering new verticals. Enhanced economics for Kogan Mobile to commence in October 2017.

PRO FORMA OPERATING COSTS

Operating costs as a % of revenue were 1pp higher than Prospectus Forecast, primarily driven by Marketing and People costs. Investment in marketing has helped to drive the outperformance in revenue versus Prospectus Forecast of 20.0%

**PRO FORMA' OPERATING COSTS

(as a % of revenue)

**PRO FORMA' OPERATING COSTS

■ Variable Costs ■ Marketing Costs ■ People Costs ■ Other Expenses

Following the release of cash constraints in FY17, the business invested in marketing to assist in driving growth and building the Kogan brand. FY16 marketing costs were at a historical low of just 2.7% of revenue due to cash constraints limiting investment at the time. Management believes targeted marketing with strict ROI metrics was a key driver in growth in FY17, and will continue to be a key driver in FY18 and beyond. In addition to marketing, the business has invested in people. Short term and long term incentive plans are in place to retain key talent in the business and align the interests of management with shareholders.

Notes:

1. The basis of the Pro Forma results is consistent with the Prospectus. A reconciliation from statutory to Pro Forma is provided in Annexure 3.
2. FY17F reflects the Prospectus Forecast.
